and share best practices. Online implementation modules provide district educators with ongoing implementation and curriculum support. Designed as grade-level specific resources, Online Implementation Modules will be available for all teachers throughout the adoption and include online video libraries through the learning portal. The online format provides flexibility and access for teachers and coaches—short video clips of master teachers,

model lessons and experts located at point of use. These video segments are correlated and aligned to the Texas Essential Knowledge and Skills (TEKS) for English Language Arts and Reading.

Live Chat Function: Immediate live assistance and feedback supporting Texas teachers in the classroom.

We share the same goal: To support quality teaching and enhanced learning in your district.

Beginning with an executive planning meeting, a McGraw-Hill Education team will meet with district curriculum leaders to plan and address specific instructional objectives. This meeting will help bring the right specialists to work with district teachers for implementation success.

Purpose: To collaboratively develop a comprehensive initial implementation plan.

By planning professional development opportunities and scheduling options together, McGraw-Hill Education and the district administrative team can prepare impactful, useful, and sustainable training events for teachers and curriculum leaders. Additionally, by planning as a single team, McGraw-Hill Education PD team members can address the outlined goals and content defined by district leaders. Specific session agendas can be discussed and confirmed during the executive planning meeting as needed.

Ongoing/Follow-Up Training: Please complete the questions below as they apply to your recommended ongoing/follow-up professional development sessions for a district that has adopted your materials. Information applies to the minimum level needed for strong implementation of materials.
