READBRIGHT

The ReadBright team would like to thank the Texas Education Agency, Safal Partners, and the review teams for the opportunity to participate in the Instructional Materials Review and Approval process.

ReadBright is a highly effective, tried-and-true, structured literacy program for beginning readers. It is aligned with the latest cutting-edge research in the science of reading. The program incorporates phonemic awareness, phonics, vocabulary, fluency, and comprehension. All instruction is systematic, cumulative, explicit, multimodal, and data-driven. ReadBright is proud to provide learning materials for students that are 100% TEKS aligned and that have received high scores on the IMRA 2024 Quality Review Process.
